

April
Live Chapter Dinner Meeting!
Wednesday - 4/13/22 @ 6PM
RSVP Today!

President's Message:

Dear ASHRAE Bi-State Chapter Members and Guests,

We have started to see things taking shape for the better around our region, and I am very happy and excited to announce that we have decided to move forward with live meetings starting this month! Finally! It is now time to look ahead re-engage with our members, socialize, network, and get back to a new normal! I miss the live meetings we used to have for our chapter, and I'm sure you do too!

We have planned exciting live meetings for the rest of the year, including a Refrigeration Update this month (4/13), a Belimo Factory Tour (5/11), the Bi-State Annual Golf Outing (5/24), and a Brewery Tour to finish our year strong! Announcements for these events to be made soon!

I also highly encourage current and future college students to apply to our Scholarship. If you know an engineering student that can benefit from our Scholarship, please refer them to our website <https://ashraebistate.org/> for our application forms.

I hope you continue to join me in this exciting journey to learn and share our experiences together. Thank You for being part of the Bi-State Chapter family. You are always welcome here!

I hope to see you in our next virtual or live meeting!

Your Chapter President
Paul Chipoco, P.E.

ASHRAE Bi-State YEA Happy Hour!
@ Brodie's Pub
3262 East Main Street
Mohegan Lake, NY 10567

Wednesday, April 13th, 2022
5:00PM - 6:00PM

Before the dinner meeting, let's all get together, have a few drinks and enjoy being together again for the first time in a long time!

I'm looking forward to seeing you all again! Cheers!

Live Meeting!

Heat Pump Technologies & Refrigeration Update
Wednesday, April 13th, 2022
@ Brodie's Pub
3262 East Main Street
Mohegan Lake, NY 10567

Heat Pump Technology and Applications - 6PM-7PM
Refrigeration Update - 7PM-8PM

Members - \$30
Non-Members - \$35
Student Members - Free

Our first live Chapter Meeting will start with a Heat Pump Technology

Presentation by Highmark Building Efficiency.

They will be presenting the latest water source and air source heat pump equipment for both HVAC and Domestic Hot Water applications in support of the electrification and decarbonization initiatives in our region.

Then, we will have a Refrigeration Update presented by Trane.

Learn about the refrigeration world and the latest updates. This presentation will give us some perspective on where refrigerants are currently and where they are headed in the near future.

Please RSVP by Friday 4/8/22 to:

Paul Chipoco
