Students

Walk-ins and General Public Welcomed

HOW CAN YOU IMPACT LEGISLATIVE DECISION MAKING:

ASHRAE Bi-State is proud to welcome Senator Terrence Murphy. As a lifelong resident, Senator Murphy follows a deep-rooted commitment to public service. In his presentation, he will discuss how non-profits can impact both local and state government and engage the ways organizations like ASHRAE—and its members—can contribute to legislative decision making.

RAINWATER HARVESTING & DOMESTIC WATER FILTRATION

Catherine Filibes of G.A. Fleet Associates will explore the various methods of water conservation. From common uses to equipment and component overview of Rainwater Harvesting to system operations and typical installations of Domestic Water filtration, we will discuss solutions for reducing and improving water usage.
